

Respect for Riverside HOA Common Areas

With spring fast approaching, it is time to remind Riverview II residents the importance of respecting the property rights of our Riverside neighbors. Their common areas are appropriately posted as private property, the same as Riverview II's. Please do not walk with or without your dogs, on or off leash, through those areas.

The streets within our two communities, are owned and maintained by the City of Healdsburg. They are open to the public. As a community, we ask that people comply with the city Municipal Code and keep their dogs on a leash and respect our individual and communal property rights by not allowing them to roam in yards and common areas. We need to do the same for the Riverside community.
